HOW LONG BEFORE A CRASH WILL COME?

Not a few of the leading business men of the country are beginning to fear a reverse from the present prosperity in the Eastern States. There is an overbuilding of railroads and an overproduction of almost all kinds of manufactures. Merchants and dealers of every kind are laying in an immense stock of goods and every wheel is spinning and every man is busy trying to fill the orders that flow in. Everyone is running in debt to build nice homes or to fix for a larger business, and fortunes that were solid when the firm began now stand like inverted pyramids, resting on the point instead of on the base. In case of a change, or if a panic sets in, these would topple over and knock each other down like rows of bricks. The money market has many elements of strength. The Government is redeeming bonds and paying interest on its debt. Railroads are declaring large dividends and money is very easy. In addition to that immense sums are being scattered all over the United States in the shape of pensions, which are usually paid to poor men or their widows, and every cent of it goes into the money current at once. This will go far to prevent the money panic. Still, when once a stampede sets in money disappears like lightning and everyone who has a dollar hangs on to it or buries it. The history of the country shows that panics occur periodically about every 11 years, and only one or two big failures are necessary at the right time to bring one. Just now, while so many railroads are being built, there is no great danger, but when the money that has been advanced has all been used and the interest comes due without having earned anything to pay it, then look out.

WASHOE AND CHURCHILL.

We publish to-day on our local page Assembly Bill No. 87, introduced by Hon. C. S. Varian, annexing Churchill county to Washoe. We think the bill a good one and have no doubt but what the people of Churchill will fully endorse Mr. Varian's measure. Churchill county collected last year for State and county purposes \$13,862.71. Of this amount \$10,580.22 was used for county purposes. She has \$316,832 in taxable property and is in a prosperous condition. It would effect a handsome saving to abolish one county government and put the two under one roof. We think the argument appeals to every taxpayer of fact and business judgment, and are thoroughly convinced that if our neighbors give the subject careful thought they will petition the Legislature to make the change.

EDITORIAL NOTES.

There is said to be 35 tons of silver coin lying idle in the vaults of the nation, and still two millions and more monthly are being added to the pile. In the San Francisco sub-treasury alone there was, on January 11th, the enormous sum of \$21,788,628, or about 628 tons.

The sand grade opposite Verdi is getting worse and worse. It is not safe for a buggy. A bridge across the river is very much needed to cut it off.

A Well Known Man Commits Suicide.

SAN FRANCISCO, Feb. 1. George S. Osgood committed suicide in a water closet of the Stock Exchange building about 12:15 to-day. On entering the closet he was observed to be taken with vertigo and was assisted to a seat, and a few moments after shot himself in the mouth. He ceased was formerly a member of the firm of Osgood & Stetson, and left the firm some four years ago, since which time he has been engaged in no business except occasional small ventures in stocks. He has long been troubled with attacks like the one which preceded his death and that is supposed to be the cause of suicide.

Nevada Legislature.

CARSON, Feb. The bill creating a State Board of Equalization passed the Senate. The memorial to Congress asking for an appropriation to improve the navigation of the Colorado river passed the House.

TO-DAY'S NEWS.

Press Dispatches to the Evening Gazette

EASTERN DISPATCHES.

A New York Blaze—Ships and Wharves on Fire.
 NEW YORK, Feb. 1.

A great fire is now raging at the foot of Charlton street, at North river, which lights up the whole city. The premises are occupied by the Inman Liverpool line. Steamers, wharf and vessels are burning, several of the latter having been towed out of danger, but not until they were in flames. The conflagration was succeeded by three fearful explosions.

NEW YORK, Feb. 1.

A fire at the Inman steamship dock broke out at 2:30 a.m. The flames ran swiftly through the sheds and storehouses and by 3 o'clock the immense dock was a mass of fire. From the remotest parts of town, in response to frequent alarms, the fire apparatus came thundering down. The heat was so great that effective work from land or river was nearly impossible. At 3 o'clock the steamship Egypt, lying at the dock, was towed into the stream all ablaze from stem to stern and through her rigging and spars bore flames to the rigging of numerous other vessels lying at anchor. Nearly the entire fire department of the city was on hand, but many engines could not be utilized. At 3:30 the spectacle was grand in the extreme. The river front for many hundred feet was ablaze, and attempts to save property on the Inman dock were abandoned and the work of firemen concentrated on the Guion Line dock adjoining. The famous ship of that line, the Alaska, was in the greatest danger. Tug-boats and ferry-boats were making every effort to save her by hauling her into the stream. At 9 a.m. the Inman dock was still burning. The vast building on fire and its contents were consumed. The loss is roughly estimated at \$1,000,000. The steamer Egypt of the National line caught fire and was towed into the stream and the flames extinguished, after she had been greatly damaged. The fire department and the two fire boats are at work on the flames. Of the large covered sheds on the pier nothing remains save fragments of frame work at the entrance that totters in the wind and threatens to fall any moment. The pier itself, with all upon it, is burned down to the piles upon which the structure rested along the water's edge. Flames are yet playing hide and seek amid the wreck and licking up the remnants of a \$1,000,000 bonfire. Great throngs of people surround the scene of desolation. The National line steamer Egypt lies out in midstream with her port side scorched and her rigging and standing gear burned and blackened.

Yellowstone Park—Illinois Thanks Gen. Sheridan.

CHICAGO, Jan. 31.

General Phil Sheridan received to-day from the Secretary of State of Illinois an official copy of a joint resolution by the State Senate and House of Representatives thanking the General for his report on the Yellowstone Park to the War Department, calling attention to the danger of leasing its privileges to any private corporation. The resolution declares against the park passing into the exclusive possession of said company to be used by them as a cattle ranch, and for the extortion of money from tourists visiting the park. The resolution also extends thanks to Senator Vest of Missouri for his bill in Congress prescribing rules for the government of the park.

General Manderson, Nebraska's New Senator.

OMAHA, Jan. 31.

The nomination of Manderson for U. S. Senator is assured. He was born in Philadelphia 45 years ago and is well educated. Removing to Canton, Ohio, he studied law and gained a good practice. He enlisted at the outbreak of the war in the 14th Ohio and was in all the campaigns in the army of the Cumberland; was breveted Brigadier at the battle of Lovejoy's station. Going to Nebraska of 1869, he was recommended to Hayes for Secretary of War. He is one of the leading lawyers of Nebraska, of excellent habits and character, and eloquent in debate.

Wants to Go to Japan.

WASHINGTON, Jan. 31.

Consul-General Van Buren is a daily attendant at the Department of State. He desires the appointment of Minister to Japan. He is just from there and must have been in recent communication with Minister Bingham, whom he desires to supersede. It is believed that the Ohio statesman is coming home.

Four Children Burned to Death.

MINNEAPOLIS, Minn., Jan. 31.

The farmhouse of A. D. Stage, near Dassel, Minn., was burned last night with its contents. Four children perished in the flames. Stage's wife and baby barely escaped, and were nearly frozen to death in the storm before they could reach a neighboring house.

An Army of Boomers Invading Indian Territory.

WICHITA, Kan., Feb. 1.

Between 300 and 400 men and 100

two horse wagons are camped on Walnut creek, a mile from Arkansas City, ready for a forward march to Oklahoma to-morrow morning. Parties have been concentrating here since Monday. There are three doctors, a lawyer, three ladies, a little girl and two newspaper men. The boomers hail chiefly from Kansas, a few coming from Missouri. They are well supplied with provisions, etc. They are by no means the riff-raff of the frontier, but a substantial and respectable body of men, many of them of some wealth and position. Captain Dave Payne will undoubtedly be made chief. This party expects to form a junction with a Kansas City organization and other bodies from Texas at or near the proposed location. The boomers expect to occupy Oklahoma with from 1,000 to 1,500.

A Well Known Old Sport Passes in His Checks.

NEW YORK, Feb. 1.

Wm. F. McManus, who died on Tuesday, was well known in this city, especially in Harlem, in political and sporting circles. He was noted for great strength, courage and joviality of disposition that made him many friends. He went to California in 1863 and kept a famous public house there in partnership with Con. Mooney. He returned to this city about six years ago and opened a boat-house on the Harlem river, which was a favorite resort for yachtsmen, oarsmen, fishermen and politicians.

Indian Territory Raiders.

CALDWELL, Kan., Jan. 31.

From the best information not less than 1,000 men will cross the line for Oklahoma within three days. A fear is based on reports from below that Indians will attack the Oklahomites perhaps before they cross Cimarron. In that case there will be trouble, as the boomers are well armed and express a determination to go in at all hazards. If they make a lodgment the result will be a grand raid upon the Cherokee strip.

Death of a Pioneer Steamboat Man.

NEW YORK, Feb. 1.

Captain Joseph died on Tuesday. He was born in 1803. He introduced the ticket system, which in a short time was adopted throughout the country. He was first to do away with wood and burn coal on steamboats. He also had built for himself the first state room, the steamboat berths alone being used up to that time. He was an intimate friend of Commodore Vanderbilt and Daniel Drew.

Another Treasurer Goes to the Springs for His Health.

ST. LOUIS, Feb. 1.

Advices from Texas says the safe of W. Wood, Treasurer of Jackson county, was blown open at Edna yesterday by order of court. Wood has been absent several weeks, ostensibly for medical treatment, but it is believed he is a defaulter for a considerable amount. It was expected to find \$25,000 in the safe, but there was nothing. Wood was also the custodian of private funds, none of which were found.

The Bill to Place Grant on the Retired List.

WASHINGTON, Feb. 1.

The House Military Committee again failed to secure a quorum to take action upon the bill to place General Grant on the retired list. Attempts have been made to secure a special meeting, but a quorum always failed to appear. Several members, including some Republicans, think enough has been done for Grant, and they declined to attend the meetings.

"Two Hearts," etc.

NEW YORK, Feb. 1.

The papers have published the following marriage notice and request San Francisco papers to copy: In this city January 31, at the residence of the bride's mother, by Rev. Henry Mollet, George Teller to Fannie C. Blanchard, both of San Francisco.

Gagging a Clerk and Robbing a Bank.

KINGSVILLE, Ont., Jan. 31.

Last night as Alf. Allworth, clerk in Smart's bank, locked the doors it 11 o'clock he was pounced upon by three masked men and gagged, dragged into the bank, the key of the vault taken from him and the safe cleaned out. They then locked him in the vault and left. The amount stolen is not made public, but is supposed to be considerable. The burglar took a northerly direction and cut the telephone wire leading north to prevent being tracked. Smart's bank and the postoffice are together, and both were cleaned out.
